

# **Part 4**

## **Safety and health training**

### **1. Description of element 4**

Part 4 describes major element 4 of the JSC Safety and Health Program, “Safety and Health Training.” Training is necessary to reinforce and complement management’s commitment to prevent exposure to hazards. All employees shall understand the hazards to which they may be exposed and how to prevent harm to themselves and others from those hazards. Effective training enables employees to accept and follow established safety and health procedures.

Element 4 covers the following categories as sub-elements:

- 4.1 Program description
- 4.2 Supervisor training
- 4.3 Employee training
- 4.4 Emergency training
- 4.5 PPE training
- 4.6 Manager training

The requirements, processes, and responsibilities for Element 4 are defined in the chapters for sub-elements.
